

Notes on Application for Student Membership

Please download the criteria and application form for student membership.

Please read the [BASRT Memorandum and Articles](#) and [Codes of Ethics and Principles of Good Practice for Members](#) before completing your application form.

Please note the information regarding referees, although the Association will write to the referees requesting references, applicants are expected to take responsibility for ensuring their timely arrival. The references will only be accepted on the official forms.

The Student Member subscription is £70.00 sterling per annum (see note (i) below). Fees should not be paid until you are offered membership, after which payment of the annual fee will confirm membership.

IMPORTANT NOTES:

- i) to fulfil student membership criteria you must send documentary evidence that you are a student on a BASRT approved course.
- ii) applications for accreditation can only be accepted from members who have been general members for twelve months prior to making the application. Please [click here](#) for the criteria for accreditation.

Student Membership is available for two years from the start of your approved course. After this time you will be upgraded to a general member. However if you are unable to complete the course within two years you may be able to remain a student member if you can provide evidence from your course leader of the reasons for the delay and confirmation that you are continuing.

Membership applications are scrutinised approximately every six weeks.
